

Sunnyvale Landfill Post-Closure Erosion Mitigation Project

What: Landfill cover erosion mitigation

Why: Project developed in response to regulatory agency to protect the integrity of the landfill cover (prevent public exposure to buried garbage and landfill gas)

Project Benefits:

- Compliance with Federal and State law
- Additional benefit - Enhance Wildlife Habitat

Temporary Unavoidable Construction Impacts:

- Potential road and bridge closures to pedestrians/bicyclists
- Increased maintenance vehicle traffic

Project Schedule:

- Construction – Spring/Summer 2018
(Projected start date – June 4, 2018)

Project Information:

- Call Solid Waste Program at 408-730-7262 or email recycling@sunnyvale.ca.gov

Beginning of unauthorized public uses (walking/bicycling) on landfill cover

Progression of erosion caused by unauthorized uses on landfill cover
